
Sixth Addenda to Criticism of the Current Science in the World

Pejman Malekinejad

TUV NORD Iran Company.

ABSTRACT

Again this article is as a proof to my previous papers [1 to 8] which approves and confirms them internationally. Some of my recent honors were mentioned. Also some parts of Iran scientific problems were assessed. It was concluded that Iran (and I) will not become anything in the science, I do not have any intelligence and Iran (and I) will not become anything in general. Also it was suggested that the only way for the general advancement of Iran is to make Iran as a state of USA politically.

KEYWORDS: Superpowers, Encyclopedia, Science, DEPRESSIVE REALISM

INTRODUCTION

Voice of America (VOA Persian) has issued an article [9] that is in the same line with this paper. In fact, that article from VOA Persian confirms this paper. Also Eminent Crown Prince of Iran, Reza Pahlavi has a saying from Atamalek Joveini about Iran Islamic Regime as “They came and dug and burned and killed and took away and went” [10] which approves this paper.

DISCUSSION

As illustration of “THE ENCYCLOPEDIA OF WORLD PROBLEMS AND HUMAN POTENTIAL” [11], one can say that problems included are those identified in international periodicals but especially in the documents of some 70,000 international non-profit organizations, profiled in the “Yearbook of International Organizations” [12]. It is interesting to know that these organizations are in all branches of science like political sciences, welding sciences, corrosion sciences, petroleum sciences and etc. Examples include:

- APSA - American Political Science Association [13]
- IPSA - International Political Science Association [14]
- IWP - Institute of World Politics [15]
- APLS - Association for Politics and the Life Sciences [16]
- NACE - National Association of Corrosion Engineers [17]
- AWS – American Welding Society [18]
- ASME - American Society of Mechanical Engineers [19]
- ASTM - American Society for Testing and Materials [20]
- SPE - Society of Petroleum Engineers [21]
- ASM - American Society for Metals [22]

And etc. The complete list of all the organizations listed in the “Yearbook of International Organizations” is in its website [12] which is searchable. I mean that the most reputable and valid international organizations have mentioned their problems in this encyclopedia. Therefore this encyclopedia is very reputable and valid. Also this encyclopedia is very valid and reputable in all branches of science.

“The Encyclopedia of World Problems and Human Potential” is a collaboration between “Union of International Associations (UIA)” [23] and “Mankind 2000”, started in 1972. The “Union of International Associations (UIA)” is a research institute and documentation center, based in Brussels. It was established in 1907, by “Henri la Fontaine” (Nobel Peace Prize laureate of 1913), and “Paul Otlet”, a founding father of what is now called information science. Non-profit, apolitical, independent, and non-governmental in nature, the UIA has been a pioneer in the research, monitoring and provision of information on international organizations, international associations and their global challenges since 1907. Therefore you can see that UIA is very valid and reputable.

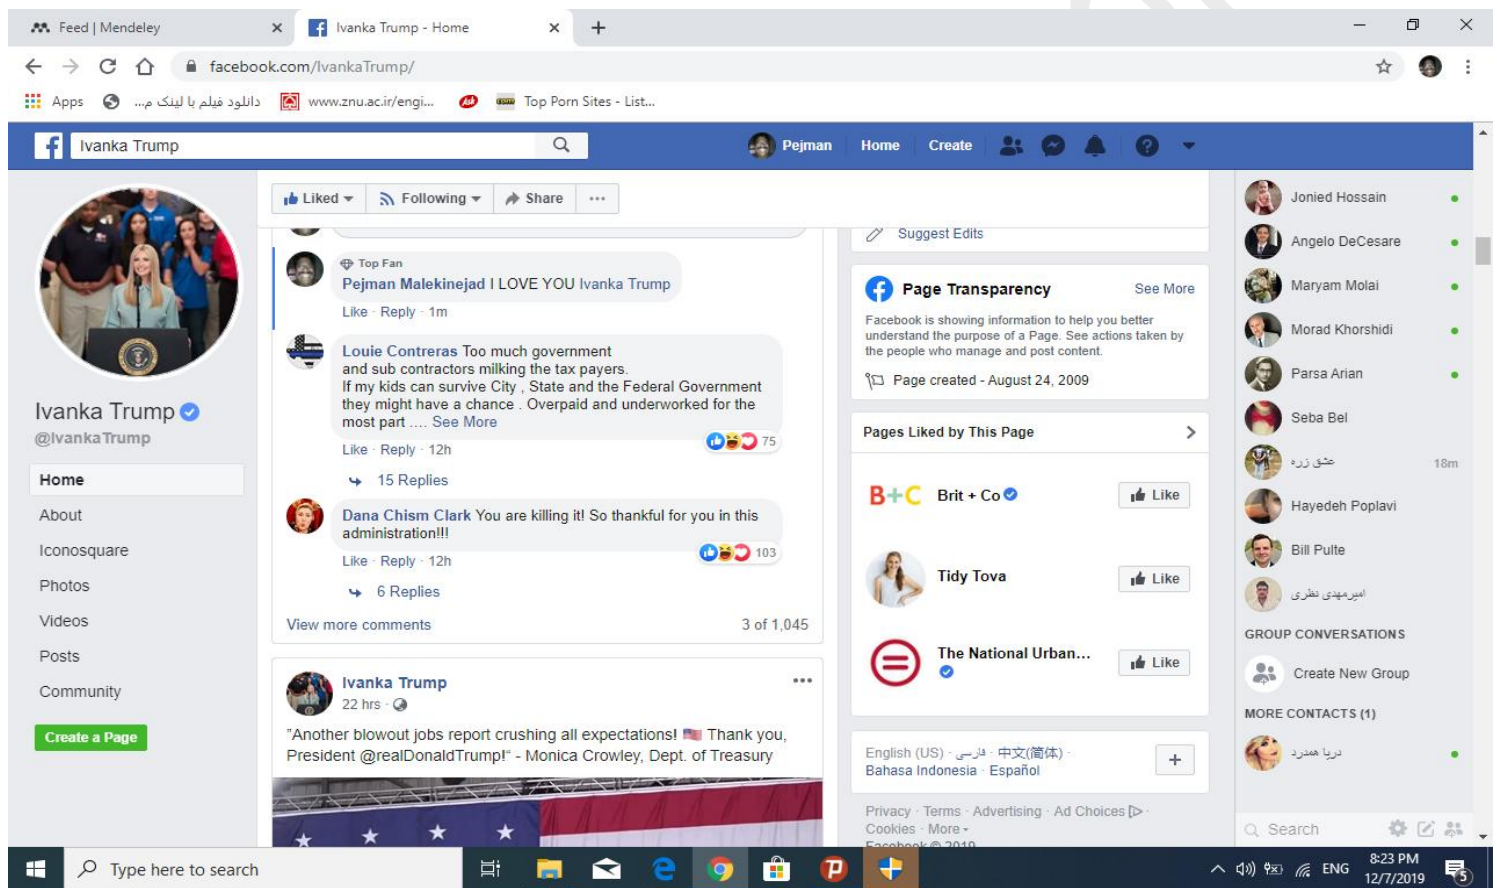

I have mentioned one of the world problems from this encyclopedia as “A CONSIDERABLE AMOUNT OF SCIENTIFIC RESEARCH IS CONDUCTED IN INSTITUTES OR UNDER CONTRACTS WHICH PRECLUDE DISSEMINATION OF THE RESULTS TO OTHER THAN A SELECT GROUP” [24] in one of my papers titled “Fifth Addenda to Criticism of the Current Science in the World” which was published in an international journal of “International Journal of Sociology and Political Science” [8]. Therefore you can see that a large part of discovered science is kept secret. So Iran (and I) will not become anything in the science, I do not have any intelligence and Iran (and I) will not become anything in general. Therefore according to the principles of DEPRESSIVE REALISM, I must always be happy. I invite all those Iranians who think that they are great minds of the world to look at other world problems mentioned in this encyclopedia the number of which now exceeds 56,000 [25]. They will certainly not be able to solve the world problems mentioned in that encyclopedia. I cannot also solve those problems. Therefore my previous papers [1 to 8] are confirmed and approved since they were based on this fact that “a large part of discovered science is kept secret”.

I am recognized as “TOP FAN” in top and prominent “FACEBOOK” pages of the following list. I am happy and proud of them. It is a great honor for me.

- DEAR EMINENT MRS. IVANKA TRUMP WHO IS THE DAUGHTER OF THE PRESIDENT OF USA.

The screenshot shows a Facebook interface with the BBC News page open. The top navigation bar includes the BBC News logo and a search bar. The main content area displays a post by Pejman Malekinejad, a Top Fan, with the text "THERE MUST BE FREEDOM IN CHINA". Below this, a post by Michael Sexton discusses rededication camps in the USA. A third post by Patel Pravin is also visible. On the right side, there are sections for "Pages Liked by This Page" (BBC News India, Foreign Correspondence, Sharanjit Leyl BBC) and "GROUP CONVERSATIONS". At the bottom, a news article from BBC News is shown, titled "Boris Johnson was shown an image of a sick four-year-old boy sleeping on a hospital floor, due to a lack of beds." The Windows taskbar at the bottom shows the time as 7:38 PM on 12/9/2019.

The screenshot shows a Facebook interface with the following elements:

- Browser Tabs:** Gmail - Inbox, 4 New Message, fox news - Face, BBC News فارسی, YouTube, Leila Forou, My WebStarts.
- Address Bar:** facebook.com/bbcpersian/
- Facebook Header:** Search bar with "BBC News فارسی", user profile "Pejman", and navigation links: Home, Create, Friends, Messages, Notifications, Search.
- Left Sidebar:**
 - BBC NEWS logo
 - BBC News فارسی @bbcpersian

- Taskbar:** Windows taskbar with search bar, task view, and open applications (File Explorer, Mail, Edge, Chrome, Store, PowerPoint, Photoshop, Word). System clock shows 7:41 PM, 12/9/2019.

The screenshot shows a Facebook page for Fox News. The page has a blue header with the Fox News logo and navigation links. The main content area displays several posts from top fans, including comments on President Donald Trump's election. The right sidebar shows a list of users who liked the page, including Parisa Daniel, Saeid Borhani, and Morad Khorshidi. The bottom of the page shows a Windows taskbar with various application icons and a search bar.

The screenshot displays the Facebook interface for the 'Fox Business' page. The main content area features a post by 'Pejman Malekinejad' with the text 'I AM ALWAYS WITH USA'. Below the post, there are two comments: one from 'Michael Patterson' and another from 'Anthony Castro'. The right-hand sidebar shows a list of 'Pages Liked by This Page', including 'Fox News Flash', 'Charles Payne', and 'Sandra Smith'. At the bottom of the page, a Windows taskbar is visible, showing the start button, a search bar, and several application icons (File Explorer, Edge, Chrome, etc.).

Facebook profile page for "صدای اسرائیل VOISFARSI". The page shows a post by "Pejman Malekinejad" with a photo of a protest. The post has 1 like and 1 reply. The page also features a "Related Pages" section with links to "Amad News", "Pars TV", and "Morteza Abdi". The page is viewed on a desktop browser with multiple tabs open, including Gmail, 3 New Messages, fox news, and YouTube. The Windows taskbar at the bottom shows the time as 7:21 PM on 12/9/2019.

Page 46

The screenshot shows a web browser window with multiple tabs open, including 'masih alinejad', 'Mahlagha Jaber', 'My WebStarts', 'Gmail - Inbox', '(8 unread) - peji', 'YouTube', and 'Lady Gaga - An'. The address bar shows 'facebook.com/RealMahlagha/'. The Facebook page for 'Mahlagha Jaber' (@RealMahlagha) is displayed. The page has a profile picture of a woman and a cover photo. The left sidebar shows navigation options: Home, About, Photos, Videos, Posts, Community, and a 'Create a Page' button. The main content area shows a post from 'Mahlagha Jaber' dated December 5 at 9:16 PM, with the text 'My iPhone case is from @halocases #HaloGlo' and a list of functions: 'Functions of the case i.e. charging & selfie light'. There are three comments: one from 'Pejman Malekinejad' saying 'I LOVE YOU Mahlagha Jaber', one from 'Nawid Akhgar' saying 'Beautiful mahlagha Jon', and one from 'Angelito Nava' saying 'Mahlagha Jaber beautiful as you always do good'. The right sidebar shows 'Community' information: 242,927 people like this, 243,690 people follow this, and a list of friends. Below this is the 'About' section, which includes 'Public Figure' and 'Suggest Edits'. The 'Page Transparency' section shows the page was created on November 11, 2011. The bottom of the page shows a Windows taskbar with various application icons and a system clock indicating 12:18 AM on 12/8/2019.

The screenshot shows a Facebook page for 'The Laurel & Hardy Blog'. The page has a blue header with the Facebook logo and the page name. Below the header, there's a navigation bar with 'Home', 'Create', and a notification bell. The main content area shows a post by 'Pejman Malekinejad' with the text 'I LOVE LAUREL AND HARDY MOVIES'. Below the post, there are several comments from users like 'Diane Nichol' and 'Pat Tracey'. The right sidebar features a 'Send Message' button, a 'Pages Liked by This Page' section, and a 'GROUP CONVERSATIONS' section. The bottom of the page shows a Windows taskbar with various application icons and a system clock indicating 3:06 PM on 1/9/2020.

In my previous paper [8], I have mentioned a great quote from Her Highness Mrs. Ivanka Trump, The daughter of Dear Eminent Mr. President Donald J. Trump who is currently the senior advisor to the president of the United States, as “THE KEY TO JOB CREATION IS INNOVATION” [26] and I said that there is nothing as innovation in Iran. As I have previously mentioned [1 and 3], the highest level of Iranian scientists in the field of inspection and corrosion in the oil and gas industry have and use the following files (books) all of which are USA innovations. Iranians do not yet have innovations like these files (books) to be used and accepted internationally.

- AWS Welding Handbooks (All Volumes)
- NACE CP1, NACE CP2, NACE CP3, NACE CP4,
- NACE CIP I, NACE CIP II
- ASNT NDT HANDBOOKS (Volumes 1 to 10)
- ASM Metals Handbooks
- Publications from AWS, ASME, API, NACE, AWWA, NFPA, ASTM, TEMA, SSPC (SPC), ABS, AAR, AASHTO, AISC, AREA, NBBPVI, UBPVLS, FED, PFI, SAE, UL, MSS SP, ASNT, ...

It shows that Iranians do not have any innovation. This fact is true for all other branches of science (except humanities as I have previously mentioned [7]) in Iran whose main books are USA innovations. In the case of metallurgical sciences, let's have a look at the "KEY TO STEEL" reference handbook [27] which includes more than 70,000 standard designations and trade names from approximately 300 steelmakers and suppliers from 25 countries. There is a link [28] from official site of "KEY TO STEEL" which introduces the 25 countries who have invented these steels. According to this link, these 25 countries are: Australia, Austria, Brazil, Bulgaria, Canada, China, Czech/Slovak Republic, Finland, France, Germany, Great Britain, Hungary, India, Italy, Japan, Republic of Korea, Norway, Poland, Romania, Russia, Serbia, South Africa, Spain, Sweden, USA. As you can see, Iran does not lie within the countries who have invented steels. I.e. Iran has no innovation in the field of materials science and engineering. In general, for a person to be able to innovate, he/she must have the highest level of science. Iranians have no innovation since they do not have large amounts of science. In fact, Iranians cannot innovate like superpowers since a large part of discovered science of superpowers is kept secret and Iranians do not have access to them as I have previously illustrated in my papers [1 to 8] and here in this article. Iranians do not have the science as much as that of the superpowers. Again one can see that Iran does not have any innovation in the field of materials science and engineering. In Iran we have access to only a small part of the science which is discovered by superpowers. In this way Iran will always remain a dependent, retarded and underdeveloped country who follows superpowers. The politics of world is such that a country like Iran will always be dependent to the superpowers for its advancement and development and will always need them. Therefore the slogan of "Down with USA" from Iranians is in fact "Down with Iran". I clear here that this slogan is not my slogan and in fact I love USA. Her Highness Mrs. Ivanka Trump is a strong person and is an American businesswoman, fashion designer, author, and reality television personality. Her Highness books are "WOMEN WHO WORK" in 2017 and "THE TRUMP CARD" in 2009. I love Her Highness Mrs. Ivanka Trump. I have written a message in FACEBOOK to Her Highness Mrs. Ivanka Trump as follows:

“((Charity))”

Your Highness Mrs. Ivanka Trump,

Hello. Thanks a lot for recognizing me as TOP FAN in Your Highness FACEBOOK page. I am a wretched, sick and poor man who suffers from schizophrenia for more than 14 years. Due to this disease I have failed in all aspects of my life like education, job, friendship, family and etc. I live in a disgusting conditions. My manuscripts of psychiatrist can be found in links in my website [29, 30]. I eat the drugs of OLANZAPINE and RISPERIDONE which are very hypnotic and therefore I am asleep most hours of a day. I am very poor so that I cannot buy a house and therefore I live with my parents who are very old and they also do not have money. But I need money to survive (to buy house and car, to buy food, furniture, cloth and etc.). I know that Your Highness control many charity organizations in the world. Could Your Highness please help me by sending money to me? I need a salary of at least 3000 USD per each month to live. All other types of financial helps and charity are greatly appreciated.

Meanwhile, I have said in my articles titled "Criticism of the Current Science in the World" and "its 7 addenda" in my website [31] that I will not become anything in the science, I have no

intelligence and I am nothing in general. Therefore according to the principles of DEPRESSIVE REALISM, I must always be happy.

If Your Highness want to send money to me, then please let me know to give Your Highness a bank account for transferring money.

Your Highness are a GREAT and kind human. Thanks in advance for Your Highness kind donation.

Kind Regards,

PejmanMalekinejad. ”””.

In the case of the recent Killing of Iranian Gen. QassimSoleimani, the head of the Islamic Revolutionary Guard Corps' elite Quds Force by USA, I can say some points as:

- Special thanks to USA and Dear Eminent Mr. President Donald J. Trump for this mission.
- A man should be very stupid to fight USA. It shows that Iran does not understand the gigantic power of USA.
- What the hell he was doing in Iraq? He was doing terrorist and destabilizing activities and roles in foreign countries with the Iranians money. Why should Iranian leaders spend so much money in that way and waste the money which belongs to Iranians? He deserved the death. DOWN WITH him and other Iranian leaders. Also he was the cause of many sanctions against Iran.

Recently a Ukrainian passenger airplane has been shot down by Iranian missiles mistakenly which led to death of 176 people in Tehran, Iran. It clearly shows the lack of science of military and defense in Iran. In Iran, we have access to only a small part of superpowers sciences and you can see that Iran cannot manage defense systems like superpowers.

I have previously mentioned some facts about huge assets of Iran leader (Khamenei) [7]. For further resources in this case you can search the keywords of “ASSETS OF KHAMENEI” in Google search engine or you can search in Farsi language and you will know his huge assets. US Embassy Baghdad has reported the assets of Khamenei as 200 Billion USD [32].

There is a famous song from Iranian singer of “GOOGOOSH” titled “Ma Beh Ham Mohtajim” in which she describes the phenomenon of DEPRESSIVE REALISM in the best way. This song can be listened in YouTube [33]. It says that “... We need each other like insane who needs sleep ...”. When a person marries, he/she wastes his/her time with growing children and studies less and according to the principles of DEPRESSIVE REALISM he/she will be happy. The drugs for schizophrenia like OLANZAPINE and RISPERIDONE are also very hypnotic for the patient to sleep and study less and according to the principles of DEPRESSIVE REALISM he/she will become happy. In fact those drugs turn a scientist in to a crazy human. This is the truth of psychiatry and psychology. Anyway I do not want to continue education since I will not become anything in the science as I have illustrated here in this article and my previous papers [1 to 8]. In general, the mental disorders belong to societies of advanced world superpowers who have the high and ultimate amounts of science (Like USA and UK). In Iran as a retarded and

underdeveloped country, we have no mental disorder. It cannot be believed that one catches a mental disorder in Iran. In Iran we have access to only a small part of superpowers sciences as I have mentioned in this article and my previous papers [1 to 8]. This is true for Iranian arts. I.e. the Iranian arts with the subject of DEPRESSIVE REALISM, are not suitable for Iran society as illustrated above.

CONCLUSION

The only way that I strongly suggest for the scientific and economic advancement and development of Iran in all fields (including politics) is to make, regard and announce Iran as a state of USA (United States of America) officially and politically (and totally). I.e. Iran should make and regard itself as a state of USA (United States of America) politically (and totally). I have heard that this idea was first suggested by His Majesty Mohammad Reza Shah Pahlavi for Iran.
